PROFILE SUMMARY

Senior Angular Developer with 6+ years of experience in front-end development and automation, building enterprise applications with Angular (9–20), TypeScript, JavaScript (ES6+), RxJS and Angular Material. Skilled in standalone components, Signals, reusable UI architecture, REST API integration and performance optimization. Experienced in Angular migration, multilingual support with ngx-translate, Google Maps API and single sign-on (SSO). Uses GitHub Copilot, ChatGPT and Claude for AI-assisted development.

PROFESSIONAL EXPERIENCE

Tata Technologies Private Limited, Pune, Maharashtra – Sr. Developer

June 2022 – Present

- Built reusable **Angular standalone components** and shared UI libraries using Signals to reduce duplicate code and improve maintainability. Applied **AI-assisted development** with **GitHub Copilot, ChatGPT and Claude** to support code improvement and feature delivery.
- Led Angular **migration** from version 9 to 14, updating **application architecture** and technical **documentation** to support long-term **maintainability**.
- Optimized application performance using **OnPush change detection**, lazy loading, image optimization, code splitting, trackBy and efficient state management.
- Resolved application defects and delivered hotfixes to support production releases and reliable deployments.
- Created **responsive web interfaces** using **JavaScript, TypeScript, Bootstrap, Angular Material** and custom CSS across devices and screen sizes.
- Improved application consistency by 35% through shared components, **services** and **dependency injection**. Reused **directives, pipes and RxJS** logic across applications to simplify maintenance and reduce duplication.
- Developed interactive dashboards, data visualizations and reports with **Chart.js** and **Angular Material** to present business metrics.
- Implemented **multilingual support with ngx-translate, integrated Google Maps API and enabled single sign-on (SSO)** for enterprise applications.
- Strengthened data integrity with **validation** and **error handling** in Angular **Reactive Forms**.
- Improved **code quality** by 20% through **code reviews**, technical guidance and **knowledge sharing**, supporting consistent **development practices**.

DBDS Robotics Private Limited, Nashik, Maharashtra – Project Engineer

October 2019 – April 2022

- Delivered front-end solutions for **industrial automation and process monitoring applications**.
- Led research and development for vision-based inspection systems, integrating **Angular** and **web servers** to increase **throughput** by 30%.
- Designed **user interfaces** using Angular, **Beijer HMI** and **Omron HMI** for industrial applications.
- Developed **front-end** services to handle complex application logic, data processing and **communication between** robot controllers.
- Connected **IoT** and HMI devices to **robotic control systems** for **real-time data collection** and remote monitoring.
- **Created** process visualization screens to help users monitor operations and system status.
- Programmed and optimized robotics and automation workflows for pharmaceutical systems according to client requirements.
- Integrated RESTful APIs to display organization-wide metrics and improve data visibility.
- Delivered **automation solutions** through design, **deployment** and **optimization**, translating client needs into functional interfaces.
- Implemented reusable front-end features for factory automation systems to reduce development and release effort.

TECHNICAL SKILLS

UI: Angular | HTML5 | CSS3 | SCSS | Bootstrap | RxJS | Angular Material | PrimeNG | Chart.js

Programming: JavaScript (ES6+) | TypeScript

Development Tools: Visual Studio Code | Git | Bitbucket | Jira

AI Tools: GitHub Copilot | ChatGPT | Claude

Key Capabilities: Angular 9 to 14 migration | ngx-translate | Google Maps API | SSO | REST APIs

EDUCATION

BE in Electrical Engineering with 66% <i>Savitribai Phule Pune University (SPPU), Nashik, Maharashtra</i>	April 2019
Higher Secondary School Certificate Examination (HSC) with 68% <i>Maharashtra State Board, Dhule, Maharashtra</i>	Feb 2014
Secondary School Certificate Examination (SSC) with 70% <i>Maharashtra State Board, Dhule, Maharashtra</i>	March 2012
